Supernatural, Sam/Gabriel + any, he's one of the most powerful beings in existence, yet he still occasionally needs help with the little things... like manners

Hurrah, a chance to let my secret OTP out! Also crack and PG ness. Poor Sam n Dean. XD

Sam's head is in his hands, Dean just dropped his beer, and Gabriel's eyebrows are waggling like there is no tomorrow.

Judging from how Zachariah seems to be purpling, Sam wouldn't be surprised if he tried to smite the archangel, but oh god he did not need to know that.

"That," Zachariah says in clean clipped tones, "Is firmly in the past and over with."

Sam drops his hands to stare at Gabriel because oh hell no that means that Gabriel wasn't just being inappropriate.

"I think we could still be lovely together," Gabriel says, and oh god Sam is going to kill him later or now because no he did not ever need to know that about Gabriel's past.
